SUMMARY

Motivated and detail-oriented Electronics and Communication Engineering (ECE) student with a strong interest in web development. Seeking to leverage my technical foundation and growing expertise in front-end technologies to contribute to innovative web projects. Eager to apply my problem-solving skills, creativity, and passion for coding in a dynamic and growth-oriented environment.

EDUCATION

Sasi Institute of Technology & Engineering

B.Tech in Electronics and Communication Engineering

Sri Pragati Junior College

Board of Intermediate

Vignan E.M School

SSC

Tadepalligudem

2022 - present (7.93 CGPA)

Tadepalligudem

2020 - 2022 (8.21 CGPA)

Alampuram

2019 - 2020 (9.8 CGPA)

SKILLS

Programming languages: C,Python,JavaScript

Frontend Technologies: HTML,CSS,Bootstrap,React.js

Backend Technologies: Express.js,Node.js.

Database: MongoDB

Tools: GitHub,Git,VSCode.

INTERSHIPS

MERN Stack Intern

Nuevdia | May - July (2025)

- Building full-stack web applications while strengthening understanding of RESTful APIs, frontend design, and backend integration.
- Enhancing problem-solving skills, version control using Github, and deployment practices.

PROJECTS

Complaint & Grievance Redressal system:

- Developed a web-based complaint management platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented AI-based duplicate complaint detection to identify and prevent repeated grievance submissions.
- Designed modules for complaint registration, tracking status, and admin response management.
- Integrated REST APIs for seamless communication between frontend and backend.
- Technologies: MongoDB, Express.js, React.js, Node.js, JavaScript, AI-based text similarity detection.

Expense Tracker(Frontend Web Application):

- Built a responsive expense tracking web application to manage daily income and expenses.
- Implemented features to add, delete, and monitor transactions with automatic balance calculation.
- Designed a clean and interactive user interface for better user experience.
- Technologies: HTML, CSS, JavaScript
